

MERCY SECONDARY SCHOOL, INCHICORE
Critical Incident Plan 25/26

Mercy Secondary School, Inchicore, inspired by the vision of Catherine McAuley, is a learning community which aims for excellence, while nurturing a living relationship with Christ through compassion for all.

This sense of caring is experienced as a lived reality in our communal response to the tragedies that are encountered in life. The Critical Incident Plan is designed to provide guidance for those whose task it is to manage such incidents and ensures a considered response that will be of benefit to all members of the school community. This policy was devised in consultation with the staff, parents and students of Mercy Secondary School, Inchicore and takes cognisance of “Responding to Critical Incidents – Guidelines for Schools (DES, 2007)” and “Responding to Critical Incidents – Resource Materials for Schools (DES, 2007)”.

Definition of a Critical Incident

A critical incident may be defined as any incident or sequence of events which overwhelms the normal coping mechanisms of the school and disrupts the normal running of the school. The following list is not exhaustive.

- The death of a member of the school community through sudden death, accident, permanent injury, terminal illness, suicide.
- An accident involving pupils or staff on or off the school premises.
- Intrusion into the school.
- A serious attack on staff members or students.
- Serious damage to the school building through fire, flood, vandalism, etc.
- The disappearance of a member of the school community.
- An accident / tragedy in the wider community.

Other scenarios may be deemed Critical Incidents at the discretion of the Principal.

Aims

The aim of the policy is to help the management and staff to react quickly and effectively in the event of an incident, to enable us to maintain a sense of control and to ensure that appropriate support is offered to students and staff.

It will also help the school to return to normality as soon as possible and limit the effects of the incident on staff, students and their parents/guardians.

Creation of a coping supportive and caring ethos in the school:

Systems are in place to build resilience in both staff and students, thus preparing them to cope with a range of life events. These include measures to address both the physical and psychological safety of the school community.

Physical Safety

The Health and Safety Policy outlines in detail our approach to ensuring the physical safety of both students and staff.

Psychological Safety

We aim to use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion.

- SPHE is integrated into the work of the school. Psychological Safety is covered in the curriculum by addressing issues such as grief and loss; communication skills; stress and anger management; resilience; conflict management; problem solving; help-seeking; bullying; decision making and prevention of alcohol and drug misuse. The promotion of mental health is an integral part of this provision.
- Staff have access to training for their role in SPHE.
- Staff are familiar with the Child Protection Guidelines (2011) and procedures and details of how to proceed with suspicions or disclosures.
- Staff are informed on mental health in general and such specific areas as signs and symptoms of depression and anxiety.
- There is a Student Support/Care Team in place in the school.
- The school has developed links with a range of external agencies such as NEPS, Lucena and other support services.
- The school has a clear policy on bullying and deals with bullying in accordance with the anti bullying policy.
- Students who are identified as being at risk are referred to the School Counselling Service. Concerns are explored and the appropriate level of assistance and support is provided. Parents/Guardians are informed and where deemed necessary, a referral is made to an appropriate agency.

- Staff are informed about how to access support for themselves.

Key Administrative Tasks

In order to ensure an efficient response to a Critical Incident, it is essential that the following key administrative tasks are undertaken.

- Student contact details are updated annually on VS Ware and are also available in hard copy from the General Office.
- Staff addresses and phone numbers are updated annually and are available in the General Office. A list of next of kin of all staff members with the appropriate contact numbers is kept in the General Office. The Principal and Deputy Principal have copies of this information on and off site.
- The emergency contact list is updated annually and is contained in Appendix E of this policy.
- Staff organising off-site trips are responsible for compiling a list of all students and staff involved in the trip. This information should be completed on the appropriate forms and will be retained in the General Office. A medical information form should be completed by the Parents/Guardians of any student participating in any overnight trip from school. Medical forms are retained by the organising teacher for the duration of the trip.
- The Health and Safety Statement is updated on an annual basis.

Guidelines on breaking bad news to Students

- Tell the class you have sad news and it is difficult for you to do this.
- Let them know the name of the person the news is about and give them the facts as per agreed statement. Encourage questions.
- Let the class know of common reactions to bad news.
- The most common reaction is shock.
- Expect tears and outbursts.
- Don't allow students to be left alone. Students must be supervised in the school building while in a distressed state.
- Let them know that the school will support them, that all are upset by the news. Allow time to mingle and talk. Tea and coffee will be provided in a lunch area.
- Be attentive to those who are not coping well with the news.
- Remind students again of the support structures in place.
- When the students appear ready, gather the year group for prayer in the prayer room.
- Some students may be able to continue with the school day and go to class.
- Some will need to stay with the counselling team if present
- Some may need to go home but may do so only if they are collected by their parents. Parents should speak with a member of the counselling team if present or the head of the SPHE department.
- Those who return to class may not be able to concentrate, but may want to talk.
